SHALL THERE BE A MUNICIPAL AUDIT?

This is a pertinent inquiry. On the distinguished authority of the Mayor the City press has stated that the Corporation is bankrupt; that a considerable sum has to be provided at the Bank to meet the interest and sinking fund on the water loan and that there is not a dollar in hand for the purpose. This is a serious state of affairs. No public works in progress. No (apparent) deficiency to meet. A larger sum raised by taxation than in any previous year, and the City knocking at the door of the Insolvent Court—so poor that it cannot afford to provide two additional lamps to light the wayfarer to his home. If those lamps could be erected within the Council Chambers we think the City would not begrudge their cost. They might shed their rays into many a (w)hole and-corner it is now the interest of the Mayor and Council to maintain in a state of dense obscurity. But the Ratepayers are unanimous in demanding light. They are not satisfied with the audits as at present conducted. While they have every confidence in the auditor they have none whatever in the parties who direct his researches. They want to know the actual financial condition of the City;—what is its revenue; what is the cost of maintaining the establishment; how large a sum is due contractors; how much is due the Bank; whether the sinking fund required by the water loan act has been provided; what are the expenses of the Board of Health; how large a sum of money has been paid members of the Council for services rendered and goods supplied on Corporation account; what are the returns for Court fees. In short, the Ratepayers who cheerfully contribute towards the support of the City Government are desirous of knowing what has become of their money! There is not a man in fifty who will say that he is satisfied with the information at present vouchsafed by the City rulers. "There is something rotten in the State of Denmark," depend upon it, or there would be no necessity for so much secresy.

It is well known that the Province is on the back of City water debentures to the tune of $150,000, and the Mayor having announced that the City is "bankrupt" we shall soon hear of the debenture-holders, in the default of the City, coming upon the Provincial Government for payment of interest and principal. At its last session the Legislature passed an Act that gives the Provincial Government power to appoint from time to time an auditor. or auditors to examine the City accounts. It was a wise precaution, as it affords the endorser—the Province at large—an opportunity to convince itself that the Municipality has not abused the confidence reposed in it. The official announcement of the Mayor has made it imperative that the Provincial Government shall put in motion the power the Act confers upon them. There is no other method by which the truth can be arrived at. The Mayor and Councillors are engaged in covering up transactions of a questionable character. The proceedings of Council meetings are not fully recorded. Accounts are passed that do not appear on the Minutes. Contracts are awarded without competition at secret meetings. Fifty thousand dollars worth of debentures have been sold at a sacrifice to a political "pal" of the Corporation. Upwards of $1000 in "accrued interest" has been given away to———whom? That will be a nut for the Government auditors (if they be appointed) to crack. Rumors of malfeasance are heard on every street-corner. Public confidence in the Corporation is entirely gone. It is time the Ratepayers should demand that there shall be no more public business transacted in private, and that there shall be a thorough and searching inquiry into the financial state of the Municipality.

The Belmont Boot and Shoe Factory.

One of the most striking features at the Provincial Exhibition last week was the admirable display of boots and shoes made by the Belmont Company. The various exhibits were awarded no less than five first prizes, and judging from the opinions of competent persons the premiums were well merited. Speaking comparatively the industry of boot manufacturing is a new industry to this Province and, considering the short time during which the Belmont Co. have had an opportunity of testing their facilities, it is a matter for congratulation that they have accomplished so much in so few years. We believe the factory was first established in 1873; but notwithstanding the youth of the enterprise we doubt very much whether any Province in the Dominion could have produced a better display both in regard to workmanship and material. In all there were 71 kinds of manufactures exhibited by this one company and in no single instance was a fault discernible as to finish or quality. The industry is an advantage in many ways to the Province. It gives employment to a number of white men who in turn circulate their earnings. It affords a market for hides which are "raised" on the Mainland, and it is a consumer of immense quantities of hemlock bark in which our forests abound. More than this—it prevents the exportation of good round sums of money for boots and shoes which in years gone by were always purchased in foreign markets. Taking into consideration the rate of labor in this Province and the many difficulties with which a new industry has to contend, it is almost surprising that the Belmont people have achieved so great a success. They give employment, we believe, to upwards of 50 men, have an extensive tannery at Belmont and occupy spacious premises on Government street. Their store is 105 feet long and three stories high. The tannery has recently been enlarged and several requisite improvements have been added to it, so that now, when worked to its full capacity, it can tan and finish some 10,000 hides per year. On the Mainland and Island the company already enjoy a lucrative trade and in the course of a few years that encouragement, which every home industry deserves, will materially add to its welfare. The prejudice which frequently esists against a "prophet in his own country" has been dispelled, and since the company do not desire more than ordinary profits, it is to be hoped they will receive, in common with other local enterprises, a share of patronage sufficiently liberal to ensure a continuance of the success to which they have thus far attained.

DEAN'S CANAL.—The steamer Sir James Douglas arrived yesterday from Dean Canal with the "R" Division C.P.R.S, viz:—W. T. Jennings, Engineer-in-charge, H. S. Langton and Geo. Hargraves, Transitmen; J. P. Howe and R. Cridge, Levellers; J. W. Creighton, Commissary; W.R. Major, Depot Clerk; Jas. Millar, Jas. Fox, D. McArthur, Geo. McRae, Wm. Stone, J. Doyle, M. Turly, A. B. Boughner, J. S. Smith, R. McKimma, John Pringle, R. Sharp, G. T. Buck, Joseph Dare, C. Rankin, Jas. Walker, Angus Fraser, John Creighton, H. Young, Alex. McDonald, W. Philips. The party have been absent several months and have located a line of of railway from the head of Dean Canal towards the interior, a distance of 52 miles.

EARLIER THAN WAS EXPECTED.—We understand the "S" Division of the C.P.R.S. arrived at Quesnell yesterday, and that the "Y" Division was expected out on Tuesday, the 10th inst. This is about ten days earlier than was at first expected.

ST. JOHN'S CHURCH.—We observe that this sacred edifice is being decorated with cereals, flowers and fruits, and that a Harvest Home Service will be held this day, morning and evening. Rev. Mr. Jenns will preach on both occasions, which promise to be more than usually interesting.

ACCIDENT.—Mr. Brethour, sen., was seriously injured on Tuesday night last by being thrown from his buggy whilst going home from the Saanich Agricultural Show. Dr. J. B. Matthews was sent for and from last accounts the patient is doing as well as can be expected.

FINE CATTLE.—Two splendid steers were brought down yesterday from the Mainland for Mr. F. Reynolds. As specimens of cattle they are perhaps the most excellent which have yet arrived here and they are a credit to Mr. Richter of Semilkameen who bred and raised them.

GAZETTED.—The appointments of Mr. Joseph Spratt and Alexander Blair Gray, Esquires, to be Justices of the Peace; and of Robert Midgley Clemitson, Esquire, to be Deputy Superintendent of Education, are *Gazetted*.

Y. M. C. A.—The annual meeting of this Association will be held to-morrow (Monday) evening at 8 o'clock in their hall on Yates street, where the annual report will be submitted. A full attendance of members is requested.

SCOTTISH COMMERCIAL.—Messrs. Stahlschimdt & Co. of Victoria have been appointed agents in this Province for the Scottish Commercial Fire Insurance Company of Glasgow.

DECOSMOS says he has a "rod in pickle" for the backs of certain parties. We are reminded that there is a "club" in soak for DeCosmos; which its name is the "Carnarvon."

CHRIST CHURCH.—Rev. Mr. Gribbell, who starts for England on the steamer of the 12th, will preach his farewell sermons, morning and evening, to day.

FOR SAN FRANCISCO.—The steamship Dakota is announced to sail on Thursday next at 1 p. m. for San Francisco direct.

LAID OVER.—Cassiar mining claims are laid over from October 1st till the 15th of June, 1877, by the Gold Commissioner.

COWICHAN AGRICULTURAL SHOW.

This annual event took place at Maple Bay on Friday last and was numerously attended by residents of the District and visitors from this city and vicinity. The steamer Cariboo-Fly left here at 7 o'clock in the morning conveying a number of pleasure seekers to the exhibition which was, considering circumstances, equal to any that has preceded it. The exhibits of roots and fruit were especially good, but the display of stock and grain was somewhat meagre. The contributions by ladies of useful and ornamental needlework was creditable and the competition in dairy produce was keen. The Show was held in the spacious agricultural hall situate on the rising ground about a quarter of a mile from the point of landing, and on a platform adjacent to the hall dancing was indulged in for several hours, Professor Schaffer's quadrille band furnishing the necessary music. The weather was beautifully fine and the excursionists on board the steamer enjoyed the trip immensely. They left Maple Bay for this port at about 9 o'clock in the evening and arrived here at 1 o'clock yesterday morning. The hon. Mr. Smithe, Minister of Agriculture and senior representative for Cowichan District, visited the exhibition and was heartily welcomed by his constituents. E. Pimbury, Esq., M. P.P., was also there. The committee of management made every possible arrangement, but were somewhat disheartened by the paucity of exhibits. Appended will be found a list of prizes awarded:—

CHILLIWHACK.—Our Chilliwhack correspondent, writing on the 6th instant, states:—"No better weather could be desired than what we experienced for the last two weeks. The farmers on the Sumas are cutting hay day and night at present. On account of the unprecedented high water the hay crop was later than usual, but from present observations the farmers will be fortunate to secure a sufficient quantity to do their cattle through the incoming winter. The agricultural exhibition is to be held on the 19th inst. on Mr. H. Kipp's farm. It is not expected that the show will be as good as in previous years as the high water destroyed the best fruit and roots. The senior member of our district, I understand, promises to aid the matter in a handsome manner. At the last sitting of the Council quite a number of new roads were asked to be surveyed. The trunk road is in good repair through this section, thanks to the present Government. The assessment lists are being distributed at present in the vicinity, which creates long faces."

HORSE KILLED.—An unfortunate horse met with a fatal accident yesterday morning. He was the property of Messrs. Stuart & Keast and being possessed of an avidity for crossing Fort street in a manner more rapid than well considered, he staked himself on a picket fence which obstructed his journey. This circumstance terminated his mundane existence in a manner which was not altogether contemplated by his equine viscus. In other words his death was precipated by the unpremeditated influence of a ligneous shaft which entered his body and dislocated his vertebral column.

LARGE IMPORTATION.—Mr. G. C. Keays of Yates Street, next to Langley & Co., received by last steamer an immense lot of Ranges, Cook, Box and Parlour Stoves. He is evidently determined to command a large share of the trade as his motto is, small profits and quick returns. Give him a call and see for yourselves. *

New Westminster.

[Guardian.]

Our streets everywhere look busy, and buildings are going up on all sides. The splendid structure composing the Colonial Hotel, is now nearly completed and the windows are being rapidly fixed in their places; the bar will probably be occupied within the next day or two. Mr. Ellard's new brick store is well forward, the roof being completed and the carpenters busy with inside work. Mr. Wintemute is putting up two new stores next to the Hyack Hall and will soon have the roof on. Mr. Scott is doing well with his contract on Front street, and will have all finished in a week or two.

A gentleman came down last night, on the Royal City, with specimens of some mineral which looks like silver. He proceeds this morning to Victoria, where his samples will be assayed. The location of the mineral is a few miles above Popcum.

The last embers of the dreaded disease are fast dying out. Mrs. Fick has quite recovered, and Mr. Fick is nearly well: their children have entirely escaped. The nurses at the Pest house and other places will be relieved from quarantine to-day, all well and uncontaminated.

The public schools will be reopened on Monday next; the precaution against the spread of smallpox which caused them to be temporarily closed being no longer necessary.

The Competition for Wimbledon.

The shooting for representative honors at Wimbledon took place yesterday afternoon at Clover Point range. The firing was from 500, 600 and 800 ranges, 7 rounds at each distance. The scores made were poor and there is no hope of the Province being represented in the Canadian team at the rifle "Derby" next year. The lowest score made by Eastern Provinces, with Nova Scotia yet to be heard from, is 59; whereas the highest aggregate accumulated here is only 56. The weather was fine and it is a matter of regret that better totals were not recorded. Appended is the score:—Kennedy, 56; Woollacott, 52; James, 48; Fletcher, 47; Williams, 45; Wilson, 40; Cox, 36; Green, 34. Kennedy shot well at the two first ranges, but could not "get on" at the 800 yards. An additional centre or a bull's eye at that distance would have secured his representation in the Dominion team.

FROM NEW WESTMINSTER.—The steamer Enterprise arrived here at 4 p. m. yesterday from New Westminster with a further consignment of salmon to be shipped per bark Lady Head to London, 2 splendid work oxen for Mr. F. Reynolds, the mails, Barnard's express and the following passengers: Mr. and Mrs. Schetsky, Mrs. Dalby, Miss Morrison, G. Coxon, W. Brattan, R. B. Thompson, J. Mann, J. S. Deas, Kyle, Patterson, G. Greer, J. Boland.

English Mail

In the last seven months the value of live animals imported into England was as follows:—Oxen and bulls, £1,841,531; cows, £498,383; calves, £128,184; sheep and lambs, £1,226,767; and swine, £83,309.

The London correspondent of the *Exeter Flying Post* writes:—"Perhaps while Mr. Gladstone is about it may explain what he and Lord Russell and Lord Palmerston did in the case of the Syrian massacres in 1860. Those massacres were exactly the same as these in Bulgaria, and all that Mr. Gladstone and his friends did was to send out a commissioner three or four months after the event to inquire and report. Yet this is the man who now denounces the apathy of Lord Beaconsfield, and whose friends are demanding that England should send out an army."

A singular and fatal accident happened to Edward Suggate, 19, while riding a bicycle near Lowestoft. He was thrown over the front of his machine. On rising to his feet he remarked to a companion, "That's a funny topple, isn't it? I can't draw my breath." He then lay down, and died in fifteen minutes.

Lord Beaconsfield was some time ago invited to accept the freedom of the city of Aberdeen. The following reply has been received:—"Lord Beaconsfield regrets it is not in his power to fix a time when he can come to Aberdeen, for he is detetained at his post by most urgent public business, and has no hope of reaching Scotland this year."

Judgment has been given by the resident Queenstown magistrate, and approved by the officials of the Board of Trade, in the case of the abandonment of the Nova Scotian brigantine Sussex. The Court held that the captain was to blame for not having the vessel repaired, for not working the pumps, and for not running her to land. His certificate was suspended for six months. The Court, however, recommended him a mate's certificate in the meantime.

As the Misses Mildred and Mabel and Masters Gerald and Harold, daughters and sons of the Hon. W. Lowther, M. P., were driving from the Ampthill Park House to the harvest festival at Marston Morsaine, the horse, taking fright, ran away in the direction of Marston station. Unfortunately, the young ladies and one son jumped from the vehicle, the former receiving scalp wounds. Miss Mildred died about two hours after. Miss Mabel and Master Gerald were not seriously injured. The coachman and Master Harold, who retained their seats, were not hurt.

On Sept. 8th, a meteoric stone, apparently the size of a small cannon ball, came over St. George's chapel, Windsor Castle, from the north, and descending towards the roof of the residence of Captain Gee, in the Military Knights' Chambers, between Henry VIII's Gateway and the Garter Tower Tower, burst and knocked off a portion of the stone parapet, tearing the creepers in front, and withering a portion of them.

IMPORTANT.—Skating will commence for the season on Saturday next the 7th inst., at Philharmonic Hall. Charge for use of skates from 2 till 4 p. m. every Saturday 25 cents for ladies and gentlemen. In the evening the rink will be open at 8 o'clock; ladies having invitation cards admitted free. Gentlemen 50 cents each. *

MR. ALF. HILLENMEYER, who has for a number of years been employed as watchmaker by a leading firm in this city, has opened a shop for repairs of watches, clocks and jewelry on Government street, second door from Yates. With extensive experience in the business he guarantees entire satisfaction. All watch and clock work warranted for one year. *3m

NAPOLEON AT ST. HELENA.

The Story Related by an Old Soldier—How the Emperor was Guarded.

A correspondent of the London 'Times' has furnished the following statement, made by William Clark, now living in Thetford, Suffolk:

I was born on the 28th of December, 1783, at Hopton, near Thetford in Suffolk. I enlisted on the 8th of May, 1815, in Her Majesty's Twentieth Regiment, then lying at Waterford. I joined the depot at Newport, Isle of Wight. Seven thousand men were then lying there. After seven months at Waterford, we went from station to station in Ireland, on an dthe 14th of February, 1818, we were sent to relieve the Fifty-third Regiment, which had accompanied Napoleon to his exile in St. Helena. We arrived in St. Helena about the 10th of May, 1818 and remained there until about six months after the death of Napoleon, who died on the 5th of May, 1821. We had to lie on the floor, one blanket to each man, which we placed half under and half over us. Sir Hudson Lowe refused the petition of Colonel South to allow bedding —"this would make them sleep too soundly." At gun-fire (6 o'clock P. M.) the guard formed close guard. Guards, pickets and all amounted at night to sixty-three or sixty-four. About a mile from our regular quarters were three guns at a point we called Break-neck Valley.

* * * * * * *

Sir Hudson Lowe's quarters were at a mile and a half's distance from Napoleon's. A Captain of the Sixty-sixth or the Twentieth Regiment was always stationed inside Boney's command; and it was his duty to see him once every day. Boney knew this was the case, and while he would not report himself, he would give him opportunities of seeing him, unless he was sulky. He was very sulky sometimes—perhaps would not show himself for several days. The Captain on the watch would signal accordingly, and after two or three days Sir Hudson would come riding up with his staff, ring the bell, and ask, "Where is Napoleon?" "In his study." "Tell him I want him." Perhaps after a time he would show himself, without coming to the Governor.

At the beginning of the year 1821 Sir Hudson sent Napoleon orders to occupy four rooms which were completed in the new State Prison. Napoleon, with his Generals, came and looked at the apartment, and said (as was reported), "I am ordered by Hudson to occupy this place, but I will never live a day in it." He returned to his old quarters, and the next day reported himself sick to Dr. Arnott, the physician of our (Twentieth) regiment. He was never seen afterwards by any guard or sentry, never, in fact, came out from his house again till he was brought out to his grave, a mile and a half distant, perhaps rather more, from his house. A Lieutenant of our regiment, (Lieut. Connor), and a Sergeant under him, commanded the funeral party. The body was laid in a shell of tin, this placed in a leaden coffin, this in a mahogany coffin, covered with superfine black cloth, Mr. Darlin (storekeeper) told me that 1,000 yards of black cloth, valued at a guinea a yard, were employed to drape the three weeping willows which were at the spot at which he had requested to be buried. The small spring at which he procured his drinking water was at the same spot. A Chinamen had been employed at $1 a day, too fetch each morning two silver goblets of this water, holding a pint and a half each. The whole garrison was in attendance at the funeral. All had passed through his chamber previously as he lay in state.

Boney was the fattest man I ever saw; the calves of his legs, and his cheeks too, you might see them shake as he was walking, and yet he had not the ruddy, healthy look our people had. He would carry a stick, about as thick as my walking-stick, with an iron spud at the end, and if he saw a weed he would always spud it up, anywhere he went. Four nights out of seven I went on sentry, and would fall asleep while walking and stray on the path; and then my hair would stand on end with fright and raise my cap, for I knew if I were caught napping I was safe for 300 lashes. I have heard men say that their sufferings from want of rest in St. Helena were more trying to them than the hardships of a campaign.

Napoleon died on the 5th of May, 1821. Two priests were in attendance. We who had to lift the body were not allowed to touch the coffin until a priest had sprinkled us with holy water. We started at 3 o'clock. The coffin was very heavy. We carried it six at a time, and the men that were the lowest down in carrying him suffered all the punishment. I was one of these. All the garrison was assembled about the Emperor's quarters and followed him to the grave, the bands playing a dead march. It was reported that Napoleon had requested to be buried with the honors of royalty, twenty-one guns; but the Governor ordered nineteen guns to be fired, the number assigned to a general. We carried the body where a cart with oxen could not go; but in certain parts of the distance the men were relieved, and the body drawn upon a cart. The Roman Catholic priests who had been in attendance on him conducted the funeral service. The actual funeral took place about 6 P. M. Nine or ten of us had been employed for three days in excavating in the rock a cavity seven feet deep and eight feet square. The rock was blasted, and where the powder had made the sides uneven it was filled in, and the cavity smoothed all round. In the cavity thus made by sappers and miners, assisted by my own labor and that of others, flagstones were inserted in the rock and formed into a case or box, which received the case or coffin. The coffin was covered over with a large flagstone, and the four corners were bored and fitted in with the rubble and leveled, and a mound resembling a common grave raised above it. An iron palisading was placed round, and sentry kept it over it night and day until all the troops were withdrawn. They were gradually withdrawn and our regiment left six months after the funeral.

Every man of full age on the island, whatever his ordinary occupation, was required to have arms, and to carry them on occasion; and Sir Hudson Lowe from time to time, at intervals of a month or six weeks, would require them to muster in a body. The Duke of Reichstadt was at this time in America, and the idea was that the possibility of a rescue might be attempted from that quarter. The Conquerer, of seventy-four guns, was in the harbor and kept guard there. Two sloops of war were always cruising round. A circuit of perhaps three-quarters of a mile was assigned to Napoleon, and he occasionally, though rarely, made an excursion. There was a sentry at every twenty paces all round the house, when, after gun-fire, they were brought nearer. Sometimes Napoleon's horses would be brought to his door fully caparisoned, but he very seldom mounted them. His long Hessian boots were stuck in the stirrups. The Generals, his friends, if they wished to pass the boundary and enter the town, (about three-quarters of a mile from Boney's quarters) were accompanied by a sentry of the Twenty-first Light Dragoons, or, if on foot, by any soldier appointed to the duty.

I believe if ever a man died broken-hearted it was Boney. He had been low-spirited, and had not taken his usual exercise for some time before he was ordered to take up his quarters in the new State prison. To be sure, it had the name of a prison; but I saw into the drawing-room and dining-room, and they were beautiful. It was built by the sappers and miners and by 400 Chinamen, and they were all of different trades. Mr. Darlan told me that Napoleon left the funeral party 1,000 francs; but Sir Hudson Lowe said it was more than he dared do to grant it. Napoleon also would have given to each man of our regiment a gold chain to hold his picker and brush, but we were not permitted to accept it..

SOME of the unbelievers in spiritualism have adopted a new and very effective means for testing the materiality or immateriality of the so-called spirits which issue from cabinets and float around a darkened room before awed spectators. It is to throw tacks on the floor. Every one knows that the thumb tacks used by draughtsmen to fasten down their paper will, when thrown on the floor, fall with the point up. When the shade of the departed loved one appears and moves about a room thus prepared for its coming, very extraordinary motions and sounds for a ghost are noticed—motions and sounds which so nearly resemble those made by an ordinary living individual that even the most ardent Spiritualist is forced to believe that the pretended ghost is hurt by the same weapons as common mortals, and is nothing more or less than one. The practices referred to is said to be popular with the spectators, but not with the managers of spiritual seances.
